EXECUTIVE SUMMARY

Motivated Engineering Student specializing in Embedded Systems, IoT, Linux-based systems, Networking, and Cloud Technologies, seeking to leverage strong technical expertise in problem-solving, programming, system design, and DevOps practices to contribute to innovative engineering solutions. Passionate about continuous learning, collaboration, and delivering impactful results that drive organizational growth and professional development.

ACADEMIC QUALIFICATION

- **B.E - Electronics and Communication Engineering - 8.37 CGPA**
  Velammal Institute of Technology,Thiruvallur-20 (2022-2026)
  Minor **Specialization**: FinTech & Blockchain (2024–2026)
- **Higher Secondary School - 84.6%**
  Malar Matric Higher Secondary School,Namakkal-88 (2020-2022)
- **Secondary School - 97.8%**
  Malar Matric Higher Secondary School,Namakkal-88 (2019-2020)

EXPERIENCE & TRAININGS

- **Intern** – Embedded Systems, TVS Training & Services (Aug 2025 - Sep, 2025)
  Completed Internship in Embedded Systems, gaining hands-on experience and practical knowledge in system applications.
- **Workshop** – Arduino & NodeMCU, Velammal Institute of Technology (Oct 4 - 5, 2023)
  Completed a 2-day workshop on Arduino & NodeMCU, gaining hands-on experience in microcontroller programming and IoT applications.

  – Embedded System Design & IoT ,Pantech.ai & Warriors Way (Nov 11 -12, 2025)
  Completed a 2-day masterclass focusing on embedded architecture, system design, and IoT integration for real-time engineering solutions.

SKILLS & TECHNICAL INTERESTS

- **Languages** : Java, C, Embedded C
- **Tools & IDE** : Arduino IDE, MPLAB X IDE, NI LabVIEW, Proteus, Linux, Git & GitHub
- **Design Tools & Technologies** : Canva Designing, UI &UX Designing
- **Soft Skills** : Rapport Building, Strong Stakeholder Management, Good Communication, People Management, Critical Thinking

PROJECTS

- **TITLE** : **“** TRI COMMAND ROVER” | **Link**
  DESCRIPTION : The Tri Control Vehicle is a smart robotic system controllable via gesture, voice and blue tooth. It offers flexible, hands-free operation for mobility, delivery, and automation applications. Powered by Arduino, it showcases the future of multi mode human robot interaction.

- **TITLE** : **“** PowerPad EV” | **Link**
  DESCRIPTION : A Wireless Charging Station for E-Vehicles enables contactless charging using electromagnetic induction. It consists of transmitter and receiver coils that transfer power wirelessly without the need for cables. This technology ensures a safe, efficient, and user-friendly charging experience for electric vehicles.

ACHIEVEMENTS

- Secured All India Rank (AIR) 37 in the NCAT Examination 2025.
- Presented Research Paper at International Conference INTEND 2.0 organized by IETE Chennai Centre.
- Won Second Prize in the Paper Presentation Competition at the Symposium conducted by SEEE, Easwari Engineering College – March 2, 2024.
- Participated in Paper Presentation Competitions conducted by Meenakshi Engineering College and Saveetha Medical and Technical Sciences.
- Participated in National Level Project Competition 2K25 organized by Velammal Institute of Technology – August 22–23, 2025.
- Won First Prize in Anna University Men’s Zonal Handball Tournament (2023–2024) held at St. Peter’s Engineering College.
- Secured Second Position in Inter-College Men’s Handball Tournament (2023–2024).

CERTIFICATIONS

- NPTEL - Cloud Computing
- AWS - AWS Cloud Essentials
- UDEMY - Flutter UI Bootcamp & Figma Essential for UI & UX
- GUVI HCL - DevOps Practitioner & UI/UX Designing
- Aadhyaa Skills - NI Lab View
- CSC - Diploma in “C” Programming (DCP)
- GFG - Java Completion Certificate
- MAVEN SILICON - VLSI System On Chip Design -Overview
- IBM - AI Fundamentals
